synchronization of chaotic nonlinear circuits via a memristor - show a variety of dynamical phenomena, such as chaotic synchronization and on-off intermittency, depending on memristor's initial state and the parameters of the chosen window function. keywords: chaos, chua's oscillator circuit, memristor, unidirectional coupling, complete synchronization. **applications of symbolic dynamics in chaos synchronization** - chaotic trajectories through synchronized chaotic motion in addition to the unpredictability and random-like appearance of chaotic trajectories might be interesting for secure communications applications.

synchronization of chaotic electronic spott's circuits - synchronization of chaotic electronic spott's circuits s. oancea* university of agricultural sciences and veterinary medicine, biophysics department, iasi, romania many linear and nonlinear control methods have been employed to control chaos. in practical applications the investigators would like to use simple and efficient controllers. the design of the simplest controller is an open ... **general approach for chaotic synchronization with ...** - volume 74, number 25 physical review letters 19june 1995 general approach for chaotic synchronization with applications to communication l. kocarev **output feedback synchronization of a novel chaotic system ...** - one of the important applications of chaotic signals is chaotic communications. in this paper, a novel chaotic system is used to communicate audio signals through wired channel. in order to use chaotic signals to communicate, the master and slave systems should be synchronized before any data transmission. in this correspondence, a novel output feedback controller is designed to synchronize ... **synchronization of chaotic lasers by optical feedback for ...** - ieee journal of quantum electronics, vol. 33, no. 9, september 1997 1449 synchronization of chaotic lasers by optical feedback for cryptographic applications **secure communication by chaotic synchronization ...** - a.n. miliou et al. / nonlinear analysis:realworld applications 8 (2007) 1003-1012 1005 t (rc)-1 fig. 2. synchronization with the application of external noise (channel).
