A medical student in the UK recently created a handbook to help trainee doctors recognize life-threatening conditions on black and brown skin. "Mind the Gap" includes images that display how...

## **Student makes handbook of clinical signs on non-white skin ...**

In an interview with Duncan McCue on CBC Radio, Malone said, "A handbook like this is necessary because at the moment in medical education in the UK, and also around the world, we are often not taught how to identify signs and symptoms in darker skin. So this handbook almost acts as that bridge to fill in that gap in our education at the moment."
