In the first 20 years of China's economic revolution, begun under Deng Xiaoping in the late 1970s, China built some 6.5bn sq m (70bn sq ft) of new housing - the equivalent of more than 150 million...

Megacities: China's urban challenge - BBC News

Modern Urban Housing in China: 1840-2000 is an examination of the development of urban housing in China over the past 160 years. From China's modernization after the Opium Wars to the latest trends adopted after the market reforms of the 1980s, this book offers a broad overview of the developments in building construction and design. Extensively illustrated and written by a team of Chinese and Western experts, it is addressed to anyone interested in the modernization and architecture of China.

Modern Urban Housing in China: 1840-2000 - Harvard ...

In your book you argue that the divide between China's rural and urban populations is one of the central challenges facing the country and its economic model. But a lot of nations have rural-urban divides. Why do you think that China's is so destabilizing? When I moved to China in January 1995, people were making about three times as much in the cities as those registered in rural areas.

How the urban-rural divide is undermining China's economic ...
