Ducati engine rebuild. ducatech.com 900SS Engine Rebuild ... After talking to many people who service and build Ducatis, I've heard that this affects 91 and 92 models. The oil screen is attached to the bolt just below the oil site glass, visible above. First and sixth gears.

Ducati engine rebuild

Most motors that pass through the BSD Performance engine room are in for extensive tuning either pre or post-season. Occasionally accident damage has to be sorted and parts sourced prior to any further work and often - especially for one-make race series or Superstock bikes - an engine will require blueprinting to get the very best from it.

DucShop

Something many people do not know is that not all the 900 Ducati engines are the same. There are five different engine specs that I know off, being as follows : CARB: The best engine came in all 91 to 97 900 SS and SL bikes. These engines were also used in 900 Monster up to engine number 037727 (late 1996 build) and the 98/99 900 Monster Special.

Cafe build of mine of Chris's 250 Scrambler 1968.

Ducati 250 Build

But after some arm twisting (and a few good dinners and bottles of wine) he agreed and promised to build an engine befitting the project. To start with, Ducati roundcase GT and Sport motors use valve springs like most engines of the 70s and only the 750SS motors are spring-less, with desmodromics doing all the valve opening and closing work.

The new Monster represents all the essence of Ducati in the lightest, most compact and essential form possible. You can already guess it from the name: Monster, nothing else. A sporty engine, but perfect for road use, combined with a Superbike-derived frame. All that you need to have fun, every day.
