Firmware Upgrade - Verizon 4G LTE Broadband Router

The user manual says "LTE CPE (ALR-U) Series supporting LTE Band 3/7/20/31". It has only 2.4 GHz for wireless. The mode is WPA2-PSK, and the distances to the devices are 15 - 20 feet, with good signal strength. This is a remote location in the mountains, so there is nothing else in the vicinity which could interfere with the wireless.
