planning for heritage conservation, there is little knowledge about how, pragmatically, the whole range of heritage values can be assessed in the context of planning and decision making. This paper aims to explore value assessment as a particular aspect of conservation planning and management.² Purposely broad in scope, what follows

Assessing the Values of Cultural Heritage: Research Report

This Guide is intended to assist managers in implementing sections of the Treasury Board Policy on Management of Materiel (2006) related to the management of movable heritage assets. The Policy stipulates that these assets are to be identified and protected, their heritage value is to be assessed, and a record that includes accurate information about their nature and condition is to be kept.

From the economic point of view, the value of a cultural heritage asset lies in the benefits that can be derived from its direct and indirect use and, even, non-use. (Serageldin 1999; Allen Consulting Group 2005) Valorisation means getting out more from the substantial investment of countries, regions and municipalities in cultural heritage in several ways, not only or primarily in economic ...

The heritage asset management process The management of heritage assets is not a discrete process, but rather an integral part of a total asset management approach. In order to achieve best practice heritage asset management, agencies which own such assets should develop a heritage strategy and incorporate this into their planning processes.
