It's not an easy read, but you won't find more information on poker mathematics anywhere else (no, not even on ThePokerBank!). Go back to the awesome Texas Hold'em Strategy.

Poker Mathematics | Using Math In Poker

Not Using Poker Math is Not Just a Leak. I can honestly say that I have managed to play poker, and remain in profit, for the past five years even though I have never calculated a sum in my head and then used it as part of my decision-making process.. It's not just a leak. It's the type of problem that allows sharks to

swim through the gaps and tear my head off.

Poker Tips from Pros: Jonathan Little Makes Poker Math Easy

Let's use Poker Math to make the decision on whether to call or not. Poker Outs. When we are counting the number of "Outs" we have, we are looking at how many cards still remain in the deck that could come on the turn or river which we think will make our hand into the winning hand.

Poker Math: Every Decision is based on Pot Odds

Basic Texas Holdem Math. Some of the math we discuss on this page can be complicated and the truth is some players won't be able to use it all. But that doesn't mean they can't be winning Texas holdem players. The math covered in this section forms the building blocks for the advanced math covered lower on the page.
